

## **BR510-EN Commvault® Professional Foundations**

### **Kurzbeschreibung:**

Learn essential skills for configuring and administering Commvault® software to protect data in virtual and physical infrastructures.

This 3-day course provides all the information about the Commvault environment core components including:

- CommServe® server configuration
- MediaAgent design
- Agent deployment
- Storage configuration
- Data security

The class is balanced between technical discussions using detailed diagrams and white board sessions, and hands-on labs using an Education Services CVLab environment focusing on the Commvault Command Center.

This course is conducted in English. The course and presentation materials are in English.

*This course can be usefully booked in combination with the two-day course [BR911 Commvault Professional Advanced](#), which usually takes place directly afterwards in the same week.*

### **Zielgruppe:**

This course is intended for personnel responsible for day-to-day administration and management of Commvault® software.

### **Voraussetzungen:**

It is assumed that the participants have basic knowledge of the Windows 20xx operating systems. Initial Commvault experience is helpful.

### **Sonstiges:**

**Dauer:** 3 Tage

**Preis:** 2160 Euro plus Mwst.

### **Ziele:**

In addition to the theoretical introduction to the Commvault software, the course will look at concrete examples and application purposes on the Smartboard and in discussion with the participants.

Of course, the course content will be supplemented with practical exercises in the available lab environment.

## Inhalte/Agenda:

- CommCell® Environment
  - ◆ CommCell® Overview
  - ◆ Product Lines
  - ◆ Commvault Command Center Core Setup
  - ◆ Commvault Command Center Navigation
  - ◆ Features
  - ◆ Commvault Command Center Customization
  - ◆ CommCell® Core Components
- Storage Configuration
  - ◆ Storage Overview
  - ◆ Disk Storage
  - ◆ Cloud Storage
  - ◆ Deduplication
  - ◆ Tape Storage
- Security
  - ◆ Storage Policies
  - ◆ Retention
- Client Administration
  - ◆ Users Security
  - ◆ Network Topologies
- Data Management
  - ◆ Plans
  - ◆ Data Protection
  - ◆ Data Recovery
  - ◆ Job Management
- Servers and Features
  - ◆ Servers and Server Groups
  - ◆ Agent Deployment
  - ◆ Files and Network Storage Protection
  - ◆ Virtual Machine Protection
- Monitoring
  - ◆ Views
  - ◆ Alerts
  - ◆ Reports
  - ◆ Support
